

noris offers companies customized IT solutions in the areas of IT outsourcing, Cloud Services and Network & Security. Technological basis of these services is a powerful IT infrastructure that relies on noris network's own high-performance backbone and multiple high-security data centers.

We are constantly looking for IT specialists (f / m) with a vision! Join our team in **Thessaloniki** as

Security Engineer (f/m)

If you value personal responsibility, short decision-making paths and looking for new challenges then send us your CV!

Responsibilities:

- Administration of customers' security infrastructure with systems like Juniper Networks, Palo Alto Networks or also Sophos (UTM)
- As a member of our specialist team you support customers' systems and setups in the 2nd / 3rd level in administration
- Fix incidents permanently, plan and execute changes, taking the SLAs into account and own initiative problem management according to ITIL

Your profile:

- Excellent Knowledge of security and network environment (firewalls, VPN, authentication, encryption, routing)
- A high level of teamwork and communication skills, independent, structured and solution-oriented work, engagement and a high readiness for action and willingness to learn will complete your profile
- Critical thinking and willingness to be informed about technological developments
- Excellent written and spoken English and / or German skills
- You have problem-solving skills and solve problems effectively
- We expect a willingness to travel

Interested? Then do not hesitate! We look forward to receiving your application with the earliest possible entry date, ideally via email.

Need help? Contact us! We will be happy to assist you with further questions.
