

IT Systems Engineer Windows

Are you proficient in the operation of complex Windows environments, but also have a certain background in Software development? Do you embrace modern configuration management systems like ansible or similar and live for automation? Then send us your CV!

Responsibilities:

- Operation and maintenance of highly available IT systems built on Microsoft Windows Server OS, in complex IT landscapes
- Technical conception and practical implementation of exciting customer projects in the Managed Services based on Microsoft Windows Server OS
- Advising our customers and in-house operations teams on best practices for Microsoft Windows Server solutions which might include AD, MS SQL Server, MS Exchange Server on premise, MS Remote Desktop Services etc.

Qualifications:

- Bachelor Degree in Computer Science or other related field or significant professional experience on IT
- Several years of experience with Windows servers and applications in complex IT infrastructures
- In-depth knowledge of Windows basic operation, Active Directory and PowerShell
- Experience in operating Exchange, Citrix and/or Microsoft SQL environments
- Good understanding of network and security concepts in connection with Windows systems
- High level of quality awareness, communication skills, ability to work in a team, commitment and willingness to learn
- Independent, structured and solution-oriented work

What noris offers:

- People-oriented culture, team spirit and passion for information technology
- Professional and personal development. Budget for training opportunities, seminars, mentoring and internal training for shaping and realizing your career goals
- Flexibility in work schedule
- Competitive compensation package
- Private health insurance
- Employee Assistance Program on mental health and workplace functioning
- Great work-life balance

- Team building events, social actions, outdoors bonding activities, pizza breaks, cinema nights and special occasion celebrations
- Well-located offices close to Thessaloniki's city center

Who is noris: noris is a high-tech company specialized in IT and one of the best working environments in Greece according to Great Place to Work® and the annual assessment survey of Best Workplaces™ in Tech Hellas 2023. It was founded in 2016 in Thessaloniki and it is a subsidiary of noris network AG, which has over 30 years of experience in IT technologies in Germany. The company provides customized IT solutions in the areas of IT outsourcing, Cloud Services and Network & Security. Technological basis of these services is a powerful IT infrastructure that relies on noris network's own high-performance backbone and multiple high-security data centers which are located in Nuremberg, Munich and Hof.

Our mission: Modernizing and securing IT Infrastructure.

Our vision is to become the best provider for modern & high security IT services.

We look forward to receiving your application (with the earliest possible entry date), ideally via email.

We will be happy to help you with further questions.
