Data Engineer (f/m/d)

As a Data Engineer you will be working in a small, cross-functional data platform team that delivers (continuously and in an agile setup) self-service BI Solutions to our Business-Users and reports to our customers. You will work with a modern streaming-first BigData platform based on Apache Kafka, Apache Flink, PostgreSQL, Apache Druid, and Jasper Reports.

Responsibilities:

- Analysis of data domains together with business experts and BigData architects.
- Creating and maintaining tools for data extraction and processing (ETL)
- Designing solutions for data marts, reports, data-intensive applications
- Maintenance and extension of our Data Warehouse incl. multidimensional data modeling
- Further developing our APIs for structured Data Access from other Applications/Domains

Qualifications:

- Bachelor or Master degree in computer science or a comparable practical qualification.
- 4+ years hands on experience as Data Engineer
- Very good knowledge in developing and optimizing relational databases, data warehouses, data marts and time-series / no-sql databases incl. database query languages / SQL
- Sound knowledge of BI front-end tools, ideally Jasper Reports or Metabase
- Experience in scripting & programming languages (Python or Scala)
- Ideally knowledge in stream-based Big Data platforms with Kafka, Apache Flink or similar
- Practical experience in Agile development life-cycle (e.g. Scrum/Kanban)
- Very good communication skills in English, both written and spoken. German knowledge is a plus

What we can offer you:

- Team spirit and a passion for information technology
- Professional and personal development. Budget for training opportunities, seminars, mentoring and internal training for shaping and realizing your career goals
- Flexibility in work schedule
- Competitive salary and performance-based bonuses
- Great work-life balance
- Team building events, pizza breaks, cinema nights and special occasion celebrations
- Well-located offices close to Thessaloniki's city center

Who we are: noris is a high-tech company specialized in IT. It was founded in 2016 in Thessaloniki and it is a subsidiary of noris network AG, which has over 25 years of experience in IT technologies in Germany. The company provides customized IT solutions in the areas of IT outsourcing, Cloud Services and Network & Security. Technological basis of these services is a powerful IT infrastructure that relies on noris network's own high-performance backbone and multiple high-security data centers which are located in Nuremberg and Munich.

Our mission: Performance beyond the standard!

Our vision is to become the leading IT company in Europe providing customized IT solutions that are based on our high-quality services and customer's satisfaction.

We are looking forward to receiving your CV, ideally via email!

noris M.I.K.E.
