

noris offers companies customized IT solutions in the areas of IT outsourcing, Cloud Services and Network & Security. Technological basis of these services is a powerful IT infrastructure that relies on noris network's own high-performance backbone and multiple high-security data centers.

We are constantly looking for IT specialists (f / m) with a vision! Join our team in **Thessaloniki** as

Senior IT Systems Engineer (f/m) Windows Automation

You are proficient in the operation of complex Windows environments, but also have a certain background in Software development? You embrace modern configuration management systems like ansible or similar and live for automation? Then send us your CV!

Responsibilities:

- You develop and deploy highly-available, IT systems on Windows
- In an agile Team you develop and implement deployment-solutions for operating systems and applications
- Write technical documentation for the Systems you developed and deployed

Your profile:

- Very good knowledge in PowerShell
- Good knowledge of System Center and DSC is advantageous
- Several years of practicing in middleware and on Windows applications
- Solid networking knowledge (TCP/IP, Routing, DNS, Firewalls)
- Experience in project management methods like Scrum or Kanban
- A high level of teamwork and communication skills, independent, structured and solution-oriented work, engagement and a high readiness for action and willingness to learn will complete your profile
- Excellent written and spoken English and / or German skills
- You have problem-solving skills and solve problems effectively
- We expect a willingness to travel

Interested? Then do not hesitate! We look forward to receiving your application with the earliest possible entry date, ideally via email.

Need help? Contact us! We will be happy to assist you with further questions.
