

noris offers companies customized IT solutions in the areas of IT outsourcing, Cloud Services and Network & Security. Technological basis of these services is a powerful IT infrastructure that relies on noris network's own high-performance backbone and multiple high-security data centers.

We are constantly looking for IT specialists (f / m) with a vision! Join our team in **Thessaloniki** as

Senior Network Engineer (f/m)

If you value personal responsibility, short decision-making paths and looking for new challenges then send us your CV!

Responsibilities:

- Administration of network infrastructure on systems like Juniper Networks or A10 Networks
- Operate IT Environments for our customers within our data centers. As a member of our specialist team you support customers' systems and setups in the 2nd / 3rd level
- Fix incidents permanently, plan and execute changes, taking the SLAs into account and own initiative problem management according to ITIL

Your profile:

- Excellent knowledge on data center environment (MPLS, BGP, Load balancer, Leaf-Spine architecture).
- A high level of teamwork and communication skills, independent, structured and solution-oriented work, engagement and a high readiness for action and willingness to learn will complete your profile
- Solid networking knowledge (TCP/IP, Routing, DNS, Firewalls)
- Excellent written and spoken English and / or German skills
- You have problem-solving skills and solve problems effectively
- Critical thinking and willingness to be informed about technological developments
- We expect a willingness to travel

Interested? Then do not hesitate! We look forward to receiving your application with the earliest possible entry date, ideally via email.

Need help? Contact us! We will be happy to assist you with further questions.
