

Linux Systems Administrator (f/m/d)

Are you proficient in the operation of complex Linux environments? Do you embrace modern configuration management systems like puppet, ansible or similar and live for automation? noris has the job for you! We are building a new Tech Team in Thessaloniki and are looking for talented IT Systems Engineers to join our team.

Responsibilities:

- Administration and configuration of Linux systems
- Perform system maintenance
- Operation, development and deployment of highly-available, IT systems and cloud platforms
- Planning and implementation of standard changes according to ITIL
- Automation of repetitive tasks and identification of the potential of improvement
- Resolve configuration-related problems
- Write documentation for custom tools

Qualifications:

- Bachelor Degree in Computer Science or other related field or significant professional experience on IT
- Several years of experience with Linux servers and in-depth knowledge of networks (TCP/IP, Routing, DNS, Firewalls)
- Experience with configuration & deployment of Linux-services (e.g. Webserver, Databases)
- Experience in Bash/Shell scripting
- Expert knowledge of configuration management and automation tools (e.g. ansible, puppet and foreman)
- Experience using Docker and Kubernetes would be an asset
- Very strong analytical skills to identify problems root cause
- Excellent communication and collaboration skills
- Excellent written and spoken English
- Knowledge of German would be an asset

What we can offer you:

- Team spirit and a passion for information technology
- Professional and personal development. Budget for training opportunities, seminars, mentoring and internal training for shaping and realizing your career goals
- Flexibility in work schedule
- Competitive salary and performance-based bonuses
- Great work-life balance
- Team building events, pizza breaks, cinema nights and special occasion celebrations
- Well-located offices close to Thessaloniki's city center

Who we are: noris is a high-tech company specialized in IT. It was founded in 2016 in Thessaloniki and it is a subsidiary of noris network AG, which has over 25 years of experience in IT technologies in Germany. The company provides customized IT solutions in the areas of IT outsourcing, Cloud Services and Network & Security. Technological basis of these services is a powerful IT infrastructure that relies on noris network's own high-performance backbone and multiple high-security data centers which are located in Nuremberg and Munich.

Our mission: Performance beyond the standard!

Our vision is to become the leading IT company in Europe providing customized IT solutions that are based on our high-quality services and customer's satisfaction.

We are looking forward to receiving your CV, ideally via email!

noris M.I.K.E.
