

Scala Developer

As a developer you will be working in a small, cross-functional data platform team that delivers (continuously and in an agile setup) self-service BI Solutions to our business users and reports to our customers. You will extend and improve the custom applications the platform consists of.

Responsibilities:

- Design solutions for data-intensive applications
- Create and maintain solutions for data extraction, processing and ingestion (ETL)
- Further develop APIs for interfacing with other parts of the company
- Develop custom tools for improving our development and operating experience
- Design, create and maintain data models for structured and time series data

Qualifications:

- Hands on experience with pure functional programming, e.g.: Haskell, Coq, Ada
- Knowledge of the JVM, Scala, and sbt ecosystem
- Interested in good code and no blind adherence to standard practices
- Knowledge in stream-based Big Data platforms like Apache Kafka, Apache Flink
- Working experience with relational databases, data warehouses and advanced SQL
- Experience in REST APIs is a plus
- Experience in Python is a plus
- Proper source management and CI/CD processes (git, Gitlab CI)
- Proficient at written and spoken English

What we can offer you:

- Team spirit and a passion for information technology
- Professional and personal development. Budget for training opportunities, seminars, mentoring and internal training for shaping and realizing your career goals
- Working in an Agile environment
- Flexibility in work schedule
- Competitive salary and performance-based bonuses
- Great work-life balance
- Team building events, pizza breaks, cinema nights and special occasion celebrations
- Well-located offices close to Thessaloniki's city center

Who we are: noris is a high-tech company specialized in IT. It was founded in 2016 in Thessaloniki and it is a subsidiary of noris network AG, which has over 25 years of experience in IT technologies in Germany. The company provides customized IT solutions in the areas of IT outsourcing, Cloud Services and Network & Security. Technological basis of these services is a powerful IT infrastructure that relies on noris network's own high-performance backbone and multiple high-security data centers which are located in Nuremberg and Munich.

Our mission: Performance beyond the standard!

Our vision is to become the leading IT company in Europe providing customized IT solutions that are based on our high-quality services and customer's satisfaction.
