

Senior IT Systems Engineer - Windows Operations (f/m/d)

Are you proficient in the operation of complex Windows environments, but also have a certain background in Software development? Do you embrace modern configuration management systems like ansible or similar and live for automation? Then send us your CV!

Your role:

- You operate, develop and deploy high-available, IT systems on Windows
- In an agile Team you are the direct contact for our communication partner
- You plan and complete changes (according to ITIL) taking into account the service level agreements (SLAs)
- Resolve incidents and problems sustainably
- Identify potential for improvement and optimize together with other Teams or Departments

Your profile:

- Several years of practical experience with Windows-servers
- Good knowledge of middleware and applications on Windows
- You have deep knowledge of Active Directory and PowerShell
- Exchange and / or Microsoft SQL complement your core competences
- Solid networking knowledge (TCP/IP, Routing, DNS, Firewalls)
- A high level of teamwork and communication skills, independent, structured and solution-oriented work, engagement and a high readiness for action and willingness to learn will complete your profile
- Excellent written and spoken English
- You have problem-solving skills and solve problems effectively

The following would be desirable as well:

- Certain background in software development
- Good oral and writing skills in German

What noris can offer you:

- Team spirit and a passion for information technology
- Professional and personal development. Budget for training opportunities, seminars, mentoring and internal training for shaping and realizing your career goals
- Flexibility in work schedule
- Competitive salary and performance-based bonuses
- Great work-life balance
- Team building events, pizza breaks, cinema nights and special occasion celebrations
- Well-located offices close to Thessaloniki's city center

Need help? We will be happy to help you with further questions.
