

Senior Security IT Engineer / Analyst (f/m/d)

If you value personal responsibility, short decision-making paths and looking for new challenges then noris is for you.

Your role:

- Analyze and follow up on solutions for security vulnerabilities and disruptions of systems and services.
- Planning, execution and follow-up of penetration tests and IT audits
- Assessing results and risks and recommending countermeasures and awareness measures
- Technical support of audit/test results for information security reports
- Contact person for the business units in technical questions related to IT security
- Identification of vulnerabilities and review of log data
- Monitoring, tracking and initiating countermeasures in the event of attacks and anomalies
- Formulate hypotheses about potential threats
- Manual and partially automated analysis of IT systems
- Provide real-time analysis of security alerts generated with the help of SIEM
- Proactive and iterative search through networks to detect and isolate advanced threats
- Improve the automated part of the threat detection system
- Investigate potential risks and track suspicious behavior on the network
- Create IT Evaluations for security-relevant events
- Support in IT projects, especially in the development of IT security-relevant solutions
- Problem management according to ITIL

Your profile:

- Successfully completed studies in computer science or comparable training with an IT focus
- Very good knowledge of security topics (IPS / IDS, threat analysis and vulnerabilities)
- Know-how in the field of cyber threat intelligence
- Very good knowledge of IT security and networks as well as systems hardening
- Structured, independent and solution-oriented work
- Commitment and willingness to learn with regard to technological developments
- A high level of teamwork and communication skills, engagement and a high readiness for action
- Excellent organizing, prioritizing and multitasking abilities
- Excellent written and spoken English

The following would be desirable as well:

- Certain background in software development
- Good oral and writing skills in German

What noris can offer you:

- Team spirit and a passion for information technology
